SHIBAURA

NEW 2014

NEW 2014

The **Shibaaura SR370** is the most advanced Surrounds Mower available.
High and Low Range Transmission, 4WD in Low range,
and powered by a 23hp 3-cylinder Shibaaura Diesel Engine.

- Precision Japanese quality manufacturing
- CE Certified to mow safely on 20 degree slopes plus Certified ROPS and seat-belt standard
- A 23hp (16.8kw) Shibaaura 3-cylinder diesel engine that meets the stringent US EPA Interim Tier 3, as well as EU DGXI Stage 3 Emission regulations and with heavy-duty 2-stage remote air filter
- Reversible rotation fan to clear grass build-up from screen, firstly when starting the engine, and then the fan also runs for 5 seconds every 5 minutes
- Premium seat with armrests for maximum operator comfort – Optional Suspension seat \$854 EX GST
- Instrument Panel and blade engagement lever on tilt-control steering console - Full instrumentation including, hourmeter, temp, fuel gauges, oil pressure and battery lights, air cleaner restriction and parking brake warning lights, plus glow-plug indicator. Indicator light when blades are in the mowing or backlapping modes.
- Foot-controlled hydrostatic transmission. High range for travel or variable mowing speeds, and Low range for mowing in 4WD. Excellently designed hydraulic drive system to minimise noise and maximise driveability, especially on hills.
- When in 4WD the hydraulic transmission braking stops the mower once the operator's foot is removed from the pedal, even on steep slopes, in forward or reverse
- Wet disc, single pedal control brakes
- Hydraulic power steering and variable reel lift, and hydraulic drive to all reels
- 7-blade cutting reels with rear roller scrapers giving a total cutting width of 1.8m
- Unique skids on all cutting reels to avoid gouging on uneven ground
- Down pressure springs on each reel to improve cut quality
- Forward and rear grass discharge
- Backlapping with ease from controls near the operator's seat
- Rear reel assembly rotates to the side for easy adjustments
- Individual Hydraulic Valve to backlap any reel individually
- 2 Year / 1,500 hour Commercial Warranty

Fully Imported from Japan

PRICES MAY FLUCTUATE DUE TO CURRENCY EXCHANGE P.O.A.

TESTIMONIAL

We have always used a high quality Ride-on Reel Mower for our prestige Burwood Park. Last year we were ready to update, and probably with the same brand, but having purchased our previous mower from Macarthur Mowers and Marine, we were open to their demonstration of a Shibaaura SR370 Heavy-duty 4WD Triplex. We also had a demonstration of other brands, but none performed as well. The comfort and the extra features that the Shibaaura has, and the quality of cut, plus the balance of four wheels put it way ahead of the opposition. Another great feature, that we were shown, and that we have now come to be aware of, is the ease of servicing. In the end we purchased the Shibaaura, and it has been an excellent choice.

Grant Trevena, Plant Manager. Burwood Council. 01.08.13
